

Permits (The Order)

ORDER

PC

2026-VJS-BOOT-009 · 8 June 2026

BINDING

 · assent: sovereign assent · subject: vjs-v2-permits

Permits required for governed writes; hooks enforce lifecycle (permit check, pre-commit validation), not the law itself.

Permits are required for governed writes; hooks enforce the lifecycle, not the law.

DIRECTIVE	ACTOR	MUST
D1	agent	obtain permit before governed write
D2	agent	close permit with proof
D3	agent	keep hooks short

FORBIDDEN
write long hook prose
explain law in hook
bypass permit check

Hooks enforce the permit lifecycle: session hint (40 words), pre-write check, pre-commit validation. They do not explain the law.
