BINDING

 · assent: sovereign assent · subject: vjs-v2-boundary

Public/private boundary enforced by deterministic scanner, not model judgment.

The public/private boundary is enforced by deterministic scanner, not model judgement.

DIRECTIVE	ACTOR	MUST
D1	agent	run boundary scan
D2	agent	use deterministic scanner

FORBIDDEN
use llm for boundary check
rely on agent discretion for boundary
publish private facts

The public/private boundary is enforced by a deterministic scanner that detects secrets, tokens, hostnames, emails, and private paths.
