

Permit Enforcement Hardening Order

ORDER

PC

[2026] VJS-CC-AGENT-UNIVERSE-V2 12 · 8 June 2026

BINDING

 · assent: sovereign assent · subject: permit enforcement

V2 alpha must enforce permits at staged-change and commit boundary before further expansion.

VJS V2 alpha must enforce permits at the staged-change and commit boundary before further doctrinal or feature expansion.

DIRECTIVE	ACTOR	MUST
D1	lexby	wire permit gate into validate staged
D2	lexby	load permits proofs and logs in status
D3	lexby	block governed staged paths without matching permit
D4	lexby	block missing before commit obligations
D5	lexby	add hook blocking fixtures

FORBIDDEN
treating route permits as advisory only
expanding lawpack doctrine before permit enforcement

Make governed writes fail closed without a valid permit and required proof.
