

Overnight Gazette Work Programme Order

ORDER

PC

[2026] VJS-CC-AGENT-UNIVERSE-V2 13 · 9 June 2026

BINDING

 · assent: standing bounded assent · subject: gazette overnight workplan

Overnight run: execute the Principal's Gazette presentation mandate with derived PDFs for the 7 gaps, two-chip rule, compact header, gated commits, and morning acceptance on tests, live checks, screenshots and logs.

The Principal's presentation mandate is settled as a bounded overnight work programme. Q1: the registrar may generate the 7 missing archive PDFs as derived presentations, clearly marked as such, V1 sources untouched; if generation fails, the rendered page suffices. Q2: the two-chip rule stands; status, force and severity live in the full-page document view and in list metadata text, never as a third chip. Q3: unattended scope covers presentation work, gazette generation, tests, screenshots, gated commits, pushes and Pages builds; the held instrument, any legislation, doctrine, estate content and spending sit outside it. Q4: morning acceptance requires green tests, live verification, filed screenshots, per-beat logs and the mandate visibly satisfied.

DIRECTIVE	ACTOR	MUST
D1	lexby	open the document full page on any list item click pdf for archive rendered canon page for v2
D2	lexby	generate seven missing archive pdfs as clearly marked derived presentations without touching v1 sources
D3	lexby	add lineage dropdown to each register listing
D4	lexby	render exactly two uniform tone chips kind and source matching node colours
D5	lexby	relocate status force and severity into document page and list metadata text
D6	lexby	install compact header with search bar cropped logo link bar and single github logo
D7	lexby	remove intro box quick links latest strip and history links and improve filter chips
D8	lexby	apply sort rules archive first under oldest estate under newest kind headers under kind sort
D9	lexby	route permit and log every beat committing and pushing only through failing closed gates
D10	lexby	leave all workspace tests green live pages verified and screenshots filed by morning review

FORBIDDEN

commencing the held realm invariants instrument without digest pinned sovereign assent
enacting or amending any legislation statute or doctrine
reintroducing register stripping code
altering v1 archive sources or estate content beyond presentation
any github link other than the single header logo
spending or acting outside the repo and its pages deployment
bypassing pre commit or pre push gates or committing without a permit

Overnight run: execute the Principal's Gazette presentation mandate with derived PDFs for the 7 gaps, two-chip rule, compact header, gated commits, and morning acceptance on tests, live checks, screenshots and logs.
