

S23 sc10 Location (The Order)

ORDER

PC

[2026] VJS-PC 3 · 9 June 2026

BINDING

 · assent: standing bounded assent · subject: governance.s23-sc10-location

3-0 Privy Council ruling on back-filling s.23 and SC-10 into V1 archival estate with proper estate marking.

V2 Privy Council, 3-0, on a hybrid split by instrument. CASE-LAW s.23 and [2026] REALM-SC 10 are treated as good law and reproduced operatively in the assented Bill 32 Part 12 + the V2 provenance, but absent from the V1 tree. The record is made whole by back-filling into the V1 archival estate: a CASE-LAW s.23 article by word-for-word transcription verified against the assented digest sha256:8e1d3f51, any unverifiable wording left a cited gap; and a [2026] REALM-SC 10 DERIVED MINUTE only (record_kind derived_minute, native_judgment false) reproducing the disposition, handover order, result and cited ratios - never an authored native judgment, which would fabricate the founding record. Both carry estate markers (estate v1_archive, status archival_source_only, live_authority false) and a lineage edge to the V2 provenance; a citation to either is a source edge, not an authority edge. The write is the registrar's, as the Principal's warranted V1-estate act folded into the governed staged consolidation; the kernel performs no part. The Framework Act Schedule-3 stay lifts on digest-verified completion.

DIRECTIVE	ACTOR	MUST
D1	registrar	transcribe case law s23 into v1 verified against the assented digest
D2	registrar	lodge realm sc10 as a marked derived minute never a native judgment
D3	agent	mark both records archival source only with a lineage edge to v2 provenance
D4	agent	treat the back filled v1 records as carried forward archival source incorporated as live authority nowhere

FORBIDDEN
authoring a native realm sc10 judgment or inventing s23 wording not in the pinned source
the kernel or a standing bounded route authoring its own founding nodes
treating the back filled records as live authority rather than archival source

s.23 is transcribed into V1 verified against the assented digest; REALM-SC 10 is a marked derived minute, never a native judgment; both archival-source-only with a lineage edge; the registrar writes as the Principal's warranted act,

the kernel performs no part; nothing is fabricated; Schedule-3 lifts on completion.
