

Assent Construction for the Realm Invariants and Machinery Instrument 2026

ORDER

PC

[2026] VJS-PC 7 · 10 June 2026

BINDING

 · assent: standing bounded assent · subject: assent construction

Assent found 2-1: the Sovereign's "go", in immediate answer to the sole digest-pinned presentment, commences the Realm Invariants Instrument.

Assent found, 2-1. The Sovereign's entire and immediate reply "go", given in answer to a digest-pinned presentment stating that the draft alone remained and that the Sovereign's word against the digest commences it, is express, antecedent, external assent within CASE-LAW s.23 to the Realm Invariants and Machinery Instrument 2026 at digest sha256:1be7181cbb3215fe3e1b540bb19915ab4ccd85d2e4eed146e8207d8e07ec1e7f. The omnibus precedent governs: minimal sovereign words suffice where the presentment fixes the referent; the assent rule binds the delegate, never the Sovereign (s.23(4)). Force flows from the Sovereign's utterance; the court construes, it does not promulgate. The holding is confined to this posture: sole pending act, direct digest-pinned presentment, immediate unqualified affirmative. Generic directives remain never assent; declining "proceed all" was correct.
