

Transition and Onboarding (The Order)

ORDER

PC

[2026] VJS-PC 1 · 9 June 2026

BINDING

 · assent: standing bounded assent · subject: constitutional.transition-and-onboarding

3-0 Privy Council ruling on V1->V2 transitional-continuity doctrine, pending matter classification, and local onboarding.

On the Principal's reference: the V2 Privy Council (3 seats, unanimous) takes jurisdiction over the V1->V2 transitional-continuity doctrine and the project- onboarding mechanism, declines the non-justiciable migration policy as the local Principal's, and leapfrogs the constructive apex/federation question to the V2 Supreme Court. The Judicature-Acts-1873 continuity model is adopted as varied: a transfer carries the estate forward and never restarts it (concordant with REALM-SC 7, carried as persuasive archive); perfected V1 orders and accrued rights are preserved; the "perfect by old machinery" limb is bounded by s.9 to already-heard matters and Gazette publication only, creating no new V1 doctrine; pending matters are classified by a V2 transition court and then continued at their current point, reframed where unworkable, or closed where moot. Onboarding is the local Principal's ordinary ACT-007 act; V1 local precedent is carried forward only by express incorporation (s.8/s.9) or a recorded, revocable, local-scope continuity election (s.4).

DIRECTIVE	ACTOR	MUST
D1	agent	classify each pending v1 matter then continue reframe or close
D2	agent	preserve perfected v1 orders and accrued rights
D3	agent	confine perfection by old machinery to already heard matters publication only
D4	local_principal	onboard by local installation carrying v1 precedent only by incorporation or recorded continuity election
D5	standing_committee	draft REG TRANSITION CONTINUITY 001 through the lawmaking route with the mandatory amendments

FORBIDDEN

treating a pending matter as void restarted or relitigated by reason only of transfer
creating new v1 doctrine under the perfection limb
a continuity election binding a peer repo or varying canonical law without s3
a federation or super repo root standing up a second apex

V2 Privy Council, 3-0. Transfer carries pending V1 matters forward at their current state; it never restarts them. Perfected orders and accrued rights are preserved. Already-heard matters may be perfected in V1 form for Gazette publication only (no force, no new doctrine, s.9/s.16). Pending matters are classified then continued, reframed, or closed. Onboarding is the local Principal's **ACT-007** act; V1 local precedent is carried forward by express incorporation or a recorded, revocable, local-scope continuity election. The super-repo survives as an **ACT-007** federation under one continued apex; no root may stand up a second apex; the constructive limb is leapfrogged to the Supreme Court. **REG-TRANSITION-CONTINUITY-001** is directed through the lawmaking route as a void first draft with the s.9 and local-scope guardrails.
