subject: case law is v1

CASE-LAW (V1) cannot be cited as live binding V2 authority.

CASE-LAW, an untouched V1 document, may not be cited as live binding V2 authority. Under ACT-001 s.4 and ACT-COMPUTER-FIRST-REALM s.6/s.8/s.9, V1 binds V2 only by express incorporation; a citation "CASE-LAW s.X" is reference, not incorporation, and imports V1 by implication. Every "CASE-LAW s.X" in the binding V2 record is STRUCK and re-grounded by its true V2 source per the VJS-PC 4 citation-map: P/constitutional articles by their V2 statutory home, SC articles by their case (cited persuasive, never binding). This is a governed, meaning-preserving clerical pass: no fresh adoption, no legal meaning changed. The entrenched rules are SAVED from repeal. The assent floor dwells operatively in ACT-COMPUTER-FIRST-REALM s.23 and INV-ASSENT-SOURCE-001, sourced to [2026] REALM-SC 10. Re-grounding the citation clarifies V2 enactment; it does not amend, dilute, or orphan the rule.
