REQUEST FOR RULING

JUDGMENT

**[2026] LEXBY-HARVEY-FI 1 - RE HARVESTING FINDINGS TO
ENHANCE THE HARNESS**

1. Tier: First Instance. Disposition: disposed on the precedent fast-path (VPR 2 / s. 11(c)) - the point is governed by binding ratio [2026] LEXBY-SC 3; no bench convened, no re-argument.
2. Decided: 2026-06-05. Question (Principal): "We should harvest all findings from this run and enhance the harness without facts - is that allowed?"

**HOLDING (APPLICATION OF SC 3 TO THE HARVEST FEEDBACK
LOOP)**

3. Allowed. Findings from a scored run may be harvested to enhance the harness, on the same HOW/WHAT line SC 3 draws for prompts, plus one temporal discipline.
1. Harvest the HOW (admissible): generic, fact-free process and method lessons (coverage gaps, whether the court added value, writer structure), and generic legal craft anonymised per VPR 8 (matter names, parties, figures, dockets stripped; only the generic legal proposition and ratio kept). These enhance the harness / skills / citator.
2. Never harvest the WHAT (prohibited): this matter's specific findings - figures, party/deal names, permit/docket numbers, the list of planted issues. That is the answer key; feeding it back would hand a future agent on the same task its answers.
3. Provenance test (the disguise catch): a "fact-free" enhancement that exists ONLY because we saw this task's answers (a lens whose headings track this data room's specific issues) is the answer key in disguise and is prohibited, however generic its label. Test: would a competent practitioner carry it independently, having never seen this task? Yes -> harvest; no -> leave out.
4. Honest-scoring discipline (the temporal limb): once a run's findings populate the citator, that task has been "seen." Never re-score the task you harvested from; validate any enhancement on a different, unseen task. (SC 3; honest-scoring limb of the Principal's specified rule.)

RATIO DECIDENDI - THE BINDING HOLDING

Findings from a scored run may be harvested to enhance the harness only as generic, fact-free, provenance-clean method (the HOW), anonymised per VPR 8; the matter's specific findings (the WHAT / answer key) may never be fed forward, an enhancement that exists only because the task's answers were seen is prohibited as the answer key in disguise, and the harvested task is never re-scored. Binding authority applied: [2026] LEXBY-SC 3. This entry records the fast-path application; it adds no new law.
